(i) The lowest Financial Proposal ( $F_m$ ) is given the maximum financial score ( $S_f$ ) of 100.

(ii) The formula for determining the financial scores ( $S_f$ ) of all other Proposals is calculated as follows:

(iii)  $S_f = 100 \times F_m / F$ , in which “ $S_f$ ” is the financial score, “ $F_m$ ” is the lowest Total Price; and “ $F$ ” is the Total Price of the proposal under consideration.

(iv) The weights given to the Technical (T) and Financial (P) Proposals are:  $T = 80\%$ , and  $P = 20\%$ .

(v) Proposals are ranked according to their combined technical ( $St$ ) and financial ( $S_f$ ) scores.

3.3.4 The Selected Applicant shall be the highest ranked (H1) Applicant (having the highest evaluated combined score). The next ranked (H2) Applicant shall be kept in reserve and may be invited for negotiations in case the H1 ranked Applicant

## Terms of Reference (TOR)

### 1. Background

**Ujjain** is an ancient city in the Indian state of Madhya Pradesh, known for its cultural, historical, and religious significance. Ujjain is famous for Shri Mahakaleshwar Jyotirlinga, a Hindu temple dedicated to Shiva and is one of the twelve Jyotirlingas, shrines which are said to be the most sacred abodes of Shiva. It is located in the ancient city of Ujjain in the state of Madhya Pradesh, India. Ujjain is one of the seven sacred cities in Hinduism and is situated on the banks of the Kshipra River where the city hosts the Kumbh Mela (Simhastha) every twelfth year when the Jupiter enters the Leo in the month of Baisakh or April-May. The Kumbh is known to be one of the largest religious congregations on the earth during which pilgrims bathe or take a holy dip in the sacred Shipra River. The city witnessed a footfall of 7.5 crores pilgrims during a month in the last Simhastha-2016 and expects footfall of 12-15 crores during upcoming Simhastha 2028.

Ujjain was selected as one of the 100 smart cities in India under the flagship Smart City Mission (SCM) of Ministry of Housing and Urban Affairs (MoHUA). For implementation of SCM projects the “Ujjain Smart City Limited (USCL)” was constituted as a special purpose vehicle (SPV) in the year 2016 under The Indian Company’s Act 2013. The USCL has executed several projects with a grant of Rs 1,000 Cr since its incorporation including the landmark project of “Shri Mahakal Lok”.

Through a challenge process the Ujjain was also selected as one of the twelve cities for implementation of CITIIS 1.0 (City Investments to Innovate, Integrate and Sustain) under the theme of public open spaces. The USCL has successfully executed all the components under CITIIS 1.0 with a grant of Rs 80 Cr.

The CITIIS 2.0, the second phase of the CITIIS (City Investment to Integrate, Innovate and Sustain) Program, was launched by MoHUA, in collaboration with AFD, KfW, EU, and NIUA to supplement climate initiatives of Govt. of India through its unique model of Circular Economy. Ujjain is one of the 18 cities that are selected under CITIIS 2.0 program. The project aims to promote a circular economy through an integrated solid waste management system for Ujjain, Madhya Pradesh. The system shall address the increasing challenges posed by waste accumulation and its adverse environmental impacts.

As per mandate for CITIIS 2.0, the USCL (the Authority) is required to engage an independent agency for carrying out various studies, documentations, and monitoring of various parameters related to environmental and social safeguards and related issues.

### Guidance Note on Conflict of Interest

1. This Note further explains and illustrates the provisions of Clause 2.3 of the RFP and shall be read together therewith in dealing with specific cases.
2. Consultants should be deemed to be in a conflict of interest situation if it can be reasonably concluded that their position in a business or their personal interest could improperly influence their judgment in the exercise of their duties. The process for selection of consultants should avoid both actual and perceived conflict of interest.
3. Conflict of interest may arise between the Authority and a consultant or between consultants and present or future concessionaries/ contractors. Some of the situations that would involve conflict of interest are identified below:
  - (a) Authority and consultants:
    - (i) Potential consultant should not be privy to information from the Authority which is not available to others.
    - (ii) Potential consultant should not have defined the project when earlier working for the Authority.
  - (b) Consultants and concessionaires/contractors:
    - (i) No consultant should have an ownership interest or a continuing business interest or an on-going relationship with a potential concessionaire/ contractor save and except relationships restricted to project-specific and short-term assignments.
    - (ii) No consultant should be involved in owning or operating entities resulting from the project.
    - (iii) No consultant should bid for works arising from the project.

The participation of companies that may be involved as investors or consumers and officials of the Authority who have current or recent connections to the companies involved, therefore, needs to be avoided.

4. The normal way to identify conflicts of interest is through self-declaration by consultants. Where a conflict exists, which has not been declared, competing companies are likely to bring this to the notice of the Authority. All conflicts must be declared as and when the consultants become aware of them.
5. Another approach towards avoiding a conflict of interest is through the use of “Chinese walls” to avoid the flow of commercially sensitive information from one part of the consultant’s company to another. This could help overcome the problem of availability of limited numbers of experts for the project. However, in reality effective operation of “Chinese walls” may be a difficult proposition. As a general rule, larger companies will be more capable of adopting Chinese walls approach than smaller companies. Although, “Chinese walls” have been relatively common

for many years, they are an increasingly discredited means of avoiding conflicts of interest and should be considered with caution. As a rule, “Chinese walls” should be considered as unacceptable and may be accepted only in exceptional cases upon full disclosure by a consultant coupled with provision of safeguards to the satisfaction of the Authority.

6. Another way to avoid conflicts of interest is through the appropriate grouping of tasks. For example, conflicts may arise if consultants drawing up the terms of reference or the proposed documentation are also eligible for the consequent assignment or project.
7. Another form of conflict of interest called “scope-creep” arises when consultants advocate either an unnecessary broadening of the terms of reference or make recommendations which are not in the best interests of the Authority but which will generate further work for the consultants. Some forms of contractual arrangements are more likely to lead to scope-creep. For example, lump-sum contracts provide fewer incentives for this, while time and material contracts provide built in incentives for consultants to extend the length of their assignment.
8. Every project contains potential conflicts of interest. Consultants should not only avoid any conflict of interest, they should report any present/ potential conflict of interest to the Authority at the earliest. Officials of the Authority involved in development of a project shall be responsible for identifying and resolving any conflicts of interest. It should be ensured that safeguards are in place to preserve fair and open competition and measures should be taken to eliminate any conflict of interest arising at any stage in the process.
